

not be made for more than 6 months. They start for a period of not more than 6 months beginning in the month we make the presumptive disability or presumptive blindness finding. The payments end the earliest of—

(a) The month in which we make a formal finding on whether or not you are disabled or blind;

(b) The month for which we make the sixth monthly payment based on presumptive disability or presumptive blindness to you; or

(c) The month in which you no longer meet one of the other eligibility requirements (e.g., your income exceeds the limits).

[45 FR 55621, Aug. 20, 1980, as amended at 57 FR 53853, Nov. 13, 1992]

§ 416.933 How we make a finding of presumptive disability or presumptive blindness.

We may make a finding of presumptive disability or presumptive blindness if the evidence available at the time we make the presumptive disability or presumptive blindness finding reflects a high degree of probability that you are disabled or blind. In the case of readily observable impairments (e.g., amputation of extremities, total blindness), we will find that you are disabled or blind for purposes of this section without medical or other evidence. For other impairments, a finding of disability or blindness must be based on medical evidence or other information that, though not sufficient for a formal determination of disability or blindness, is sufficient for us to find that there is a high degree of probability that you are disabled or blind. For example, for claims involving the human immunodeficiency virus (HIV), the Social Security Field Office may make a finding of presumptive disability if your medical source provides us with information that confirms that your disease manifestations meet the severity of listing-level criteria for HIV. Of course, regardless of the specific HIV manifestations, the State agency may make a finding of presumptive disability if the medical evidence or other information reflects a high degree of probability that you are disabled.

[58 FR 36063, July 2, 1993]

§ 416.934 Impairments which may warrant a finding of presumptive disability or presumptive blindness.

We may make findings of presumptive disability and presumptive blindness in specific impairment categories without obtaining any medical evidence. These specific impairment categories are—

(a) Amputation of two limbs;

(b) Amputation of a leg at the hip;

(c) Allegation of total deafness;

(d) Allegation of total blindness;

(e) Allegation of bed confinement or immobility without a wheelchair, walker, or crutches, due to a long-standing condition, excluding recent accident and recent surgery;

(f) Allegation of a stroke (cerebral vascular accident) more than 3 months in the past and continued marked difficulty in walking or using a hand or arm;

(g) Allegation of cerebral palsy, muscular dystrophy or muscle atrophy and marked difficulty in walking (e.g., use of braces), speaking, or coordination of the hands or arms.

(h) Allegation of diabetes with amputation of a foot;

(i) Allegation of Down's syndrome (Mongolism); and

(j) Allegation of severe mental deficiency made by another individual filing on behalf of a claimant who is at least 7 years of age. For example, a mother filing for benefits for her child states that the child attends (or attended) a special school, or special classes in school, because of mental deficiency or is unable to attend any type of school (or if beyond school age, was unable to attend), and requires care and supervision of routine daily activities.

[45 FR 55621, Aug. 20, 1980, as amended at 50 FR 5574, Feb. 11, 1985; 53 FR 3741, Feb. 9, 1988; 56 FR 65684, Dec. 18, 1991]

DRUG ADDICTION AND ALCOHOLISM

§ 416.935 How we will determine whether your drug addiction or alcoholism is a contributing factor material to the determination of disability.

(a) *General.* If we find that you are disabled and have medical evidence of your drug addiction or alcoholism, we
